Hi Mike,

I just want to thank you for showing me the Watergen 350 yesterday. It really helped seeing it in person and how it works.

Kind regards

Marcie

Hi Marcie,

Happy to show you the unit we have installed at the EPA Test & Evaluation Facility.

Does this Thursday 2/15 at 10:30AM work for you? The facility is located on Metropolitan Sewer District grounds at 1600 Gest Street. When you arrive, stop at the guard shack and tell them you are going to EPA; they may ask for your name and license plate number. The EPA building is the brown silo-looking thing ahead and on the right. The entrance is on the side of the silo-looking part and security needs to let you in, but they aren't always at the desk- if you press the buzzers and no one comes down, give me a call on my cell Ex. 6 - Personal Privacy and I'll find you. Otherwise tell security you're with Watergen, I'll give them a heads up to expect you.

Thanks,  
Michael
